MONUMENTAL

LARGE-SIZE TILES

NEW FACE OF MAXIMALISM

The Monumental collection is a ceramic series inspired by nature, combining natural aesthetics with modern trends. The authenticity of the new designs reflecting natural stone as well as concrete will enhance the existing products in the series. **Large panels measuring up to 120x280 cm provide versatility for both indoor and outdoor use – on walls, floors and as decorative cladding.** The various finishes (matt, polished, soft) adapt to the character of even the most individual spaces. Excellent technical parameters guarantee durability and versatility. It is a sophisticated collection with exceptional realism in design, bringing the beauty of nature into your environment.

NATURE IN A NEW FORM

Among the novelties on show, the Monumental collection includes timeless and elegant inspirations of the most desirable natural stones. **Different background colours, quiet or avant-garde colours** reflect the richness of nature in a non-obvious way. It is also an alternative to the increasingly unavailable and very expensive raw materials found in nature. On the other hand, for those who prefer minimalist and industrial spaces, **there are designs reflecting concrete in various shades.**

TOOL FOR THE BRAVE

Large-format tiles have now become a regular feature in interiors, winning the hearts of professionals and lovers of good design. The ubiquitous maximalism is desired by those who are bold, increasingly demanding and have refined taste. Depending on the specifics of the design, architects and clients can choose from a **variety of finishes, ranging from polished through matt to soft velvet-like satin surfaces.**

VERSATILITY OF APPLICATION

Monumental are floor and wall tiles with excellent characteristics. **Thanks to their compliance with high standards, they can be used in many spaces: bathrooms, kitchens, living rooms, terraces, facades, as well as halls in investment properties** (e.g. hotel receptions). These stunning visual effects, finding application both in domestic interiors and on the facades of family homes or buildings in public spaces, **offer uniform surfaces to suit any setting.**

VARIOUS FACES OF MAXIMALISM

The Monumental collection is maximalism at its best and an expression of an ambitious approach to the creative process. It is also a completely new and bold look at the spaces and reality around us, through a variety of graphic typologies. **By enriching its portfolio with large-format tiles consistent in design with TRI-D large-format sinters, the Paradyż brand has become the Polish manufacturer with the widest product range.**
