QUADRILLE CLARA VON ZWEIFBERGK

# Quadrille

Quadrille collection designed by Clara von Zweigbergk explores the relationship between formal balance and chromatic vibrancy. The designer's background in graphic design brings a refined sensibility to a collection of tiles that feel light and graceful, intense yet meticulously composed.

The collection takes its name from the dance that originated in France and gained popularity across Europe in the late 18th and 19th centuries. Based on intricately choreographed interaction between four couples, the quadrille creates geometric formations when viewed from above. In a similar way, the collection builds visual rhythm through the repetition of graphic elements, marrying a delicate aesthetic with a deep appreciation for geometry and symmetry.

**Six different designs generate a visual interplay to decorate interior spaces with boldness and grace, using color as a key element of expression. Crafted in glazed porcelain, the tiles in the Quadrille collection come in the classic 15 × 15 cm format, in a nod to the heritage of Italian tilemaking tradition.**
