La bellezza del processo creativo: dall'idea alla forma

The beauty of the creative process: from idea to form

La decorazione è un universo affascinante che esploriamo con curiosità e passione per proposte inedite e ricercate. Concepire una superficie per noi significa elaborare un'idea, un progetto nuovo, trovare chiavi di lettura contemporanee per dare vita a rivestimenti che durino nel tempo, capaci di distinguersi per qualità dei materiali e attenzione al dettaglio. Ci avviciniamo al design e alla realizzazione di nuovi materiali in modo diretto e sincero, a partire dalla funzione d'uso cui il prodotto è destinato, per arrivare al cuore del pensiero creativo e dare forma a sensazioni visive e tattili. La ricerca, lo studio e la sperimentazione si arricchiscono grazie alla collaborazione con alcune delle figure più interessanti nel panorama della decorazione di interni e del design internazionale. La sensibilità di ogni designer, le esigenze dei progettisti, le tecnologie applicabili e le destinazioni d'uso, aprono di volta in volta altri scenari. La realizzazione di una nuova collezione prende forma, come a partire da un foglio bianco sul quale creare un'altra composizione, per un unico e sempre, per noi, sorprendente risultato.

Interior design is a world of endless fascination that we never tire of exploring to bring you our innovative, and highly sought-after solutions. For us, to design a product is to explore an idea, to set out on a new journey, to discover new, contemporary languages capable of generating long-lasting surface coverings made from the finest materials and with unrivalled attention to detail. We approach the design and manufacture of our new materials directly and honestly, taking the product's function as the starting point on the path into the heart of the creative process – investigation, exploration and experimentation – and the development of new visual and tactile sensations. Along the way, we are fortunate to be able to collaborate with some of the most exciting figures working in the field of interior decor and design. And in turn, the sensibility of our designers and the demands of the developers who use their products drives the exploration of new technologies and functionalities, opening up new design scenarios. The creation of a new collection begins with a blank page and the start of a fresh, new composition that will lead to a unique and, for us, inevitably surprising result.

02

Ducale

IT Ducale

I profili del palazzo simbolo di Venezia raccontati in un gioco di linee e chiaroscuri che restituiscono l'arte e il fascino che si assaporano passeggiando con lo sguardo che corre e si perde tra i riflessi.

EN Ducale

The profiles of the palace symbol of Venice illustrated in a play of lines and chiaroscuro that capture art and intrigue that you encounter exploring the narrow streets gazing out but not managing to take it all in.

Dati Tecnici

Technical data

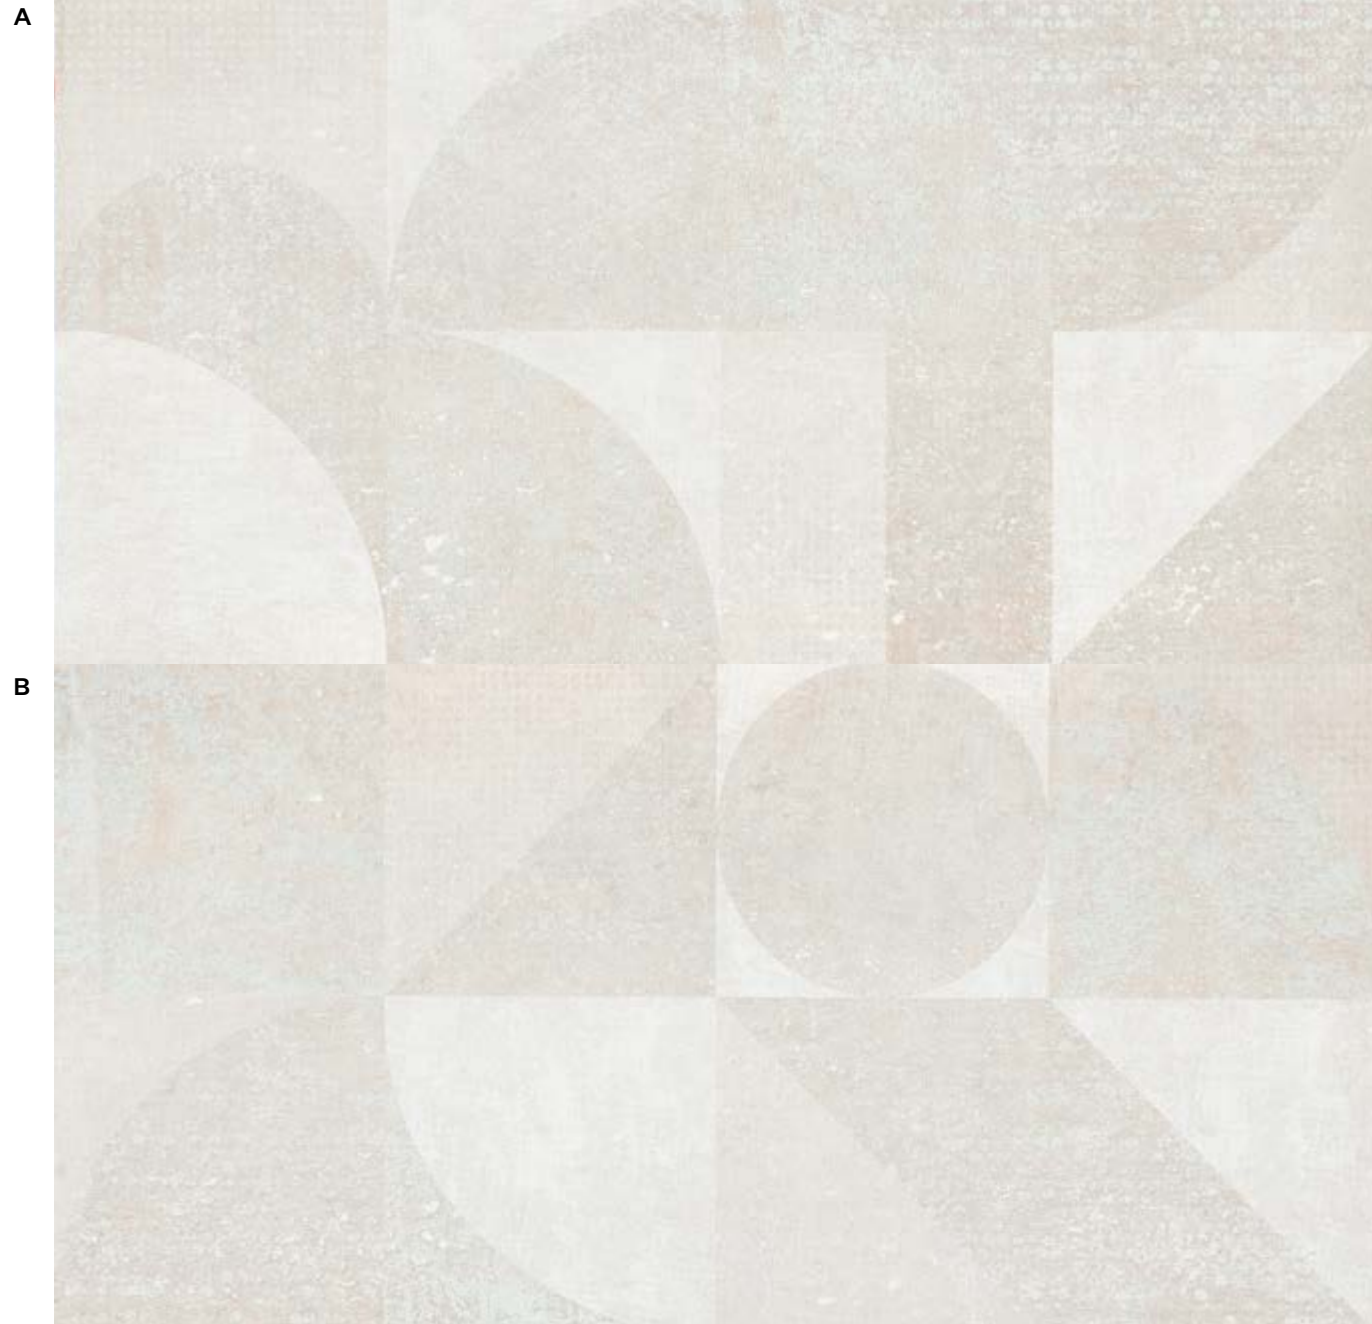

▣ Abbiamo lavorato alla creazione di collezioni uniche per qualità e bellezza, guidati dalla precisa volontà di proporre un catalogo basato non solo sul singolo prodotto, ma anche sulle relazioni tra prodotti diversi. Formati, colori e tipologie di ogni singola collezione, di seguito riportati, fanno parte di questo studio progettuale e consentono risposte articolate alle necessità dei committenti. Il tema della decorazione è stato sviluppato in modo fortemente coerente ai linguaggi dell'interior contemporaneo.

EN We have always strived to create collections that stand out for their beauty and quality, firm in our guiding objective of offering a catalogue whose merits lie not simply in the quality of its single products, but also in the relationships between them. The formats, colours and product types in each of the collections – listed in the following pages – are all the result of this same creative process, and offer the flexibility to respond to our clients' varied requirements while remaining firmly engaged with the visual languages of contemporary interior design.
