

Veneta

Veneta offers a contemporary interpretation of marble, transforming its visual richness into a calm, warm collection that integrates naturally into architecture. Its Bone and Sand shades bring a soft luminosity to the space, while the two graphic variants, Cross and Vein, offer two distinct ways of interpreting the material.

Veneta nace de una mirada contemporánea al mármol, transformando su riqueza visual en una colección serena, cálida y fácil de integrar en la arquitectura. Sus tonalidades Bone y Sand envuelven el espacio con una luminosidad suave, mientras que sus dos variantes gráficas, Cross y Vein, permiten elegir entre dos maneras diferentes de interpretar la materia.
