

# Habitat G

Habitat G conveys the elegance of concrete combined with the practicality of porcelain stoneware in 6 mm thickness. The range stands out for its contemporary look, evoking the beauty and authenticity of industrial concrete.

The available colours recall typical elements of the industrial environment, incorporating essential and clean elements typical of minimalism.

A distinctive detail of the collection is the tone-on-tone Macramè weave, which adds a touch of sophistication and visual interest without compromising the simplicity of the design.

## Surfaces and sizes

#6 mm Mat  
120x120 48"x48"  
60x120 24"x48"  
60x60 24"x24"  
Block 5x30 2"x12"  
Small hexagon 18x16 7"x6"  
Large hexagon 36x31 14"x12"  
Diamond 18x31 7"x12"
