Un'estetica senza tempo

Gatsby nasce dall'eleganza dei Roaring Twenties, un'epoca in cui architettura, design e arti decorative hanno trasformato la geometria in un linguaggio essenziale, fatto di ritmo, proporzioni e luce. Una collezione che reinterpreta quell'estetica con uno sguardo contemporaneo, traducendone i codici in superfici tridimensionali dal carattere raffinato e attuale.

Nel formato 5x20 cm, Gatsby Pure esprime l'essenzialità della superficie liscia, mentre Gatsby Blend unisce il listello liscio a due strutture tridimensionali, creando una composizione dinamica in cui superfici piane e rilievi si alternano con naturale equilibrio. La luce ne valorizza i volumi e le sfaccettature, generando riflessi in continua evoluzione che donano profondità e ritmo alla superficie.

La collezione è disponibile in sette tonalità lucide — silk, oyster, blue hour, midnight, cherry smoke, green velvet e lilac plume — una palette sofisticata che richiama l'eleganza senza tempo dell'Art Déco attraverso colori intensi e profondi. Il rilievo non decora. Disegna la luce.

A timeless aesthetic

Gatsby is inspired by the elegance of the Roaring Twenties, a period in which architecture, design, and the decorative arts transformed geometry into a minimalist language based on rhythm, proportions and light. This collection reinterprets that aesthetic in a modern key by translating its style codes into three-dimensional surfaces with a refined, contemporary feel.

In its 5x20 cm format, Gatsby Pure expresses the essential purity of smooth surfaces, while Gatsby Blend combines the smooth strip tile with two three-dimensional structures in a dynamic composition where flat and textured surfaces alternate in a natural harmony. Light enhances the different volumes and facets, generating constantly shifting reflections that fill each surface with depth and rhythm.

The collection is available in seven gloss tones — silk, oyster, blue hour, midnight, cherry smoke, green velvet and lilac plume — a sophisticated palette that recalls the timeless elegance of Art Deco through its deep, intense colours. Here, texture does not decorate. It designs light.

Une esthétique intemporelle

Gatsby puise son inspiration dans l'élégance des Années folles, une époque où l'architecture, le design et les arts décoratifs ont fait de la géométrie un langage essentiel, rythmé par les proportions et la lumière. La collection réinterprète cette esthétique dans une approche contemporaine, dont elle transpose les codes sur des surfaces tridimensionnelles au caractère raffiné et actuel.

Au format 5x20 cm, Gatsby Pure exprime la sobriété de la surface lisse, tandis que Gatsby Blend associe le listel lisse à deux structures tridimensionnelles pour créer une composition dynamique où surfaces planes et reliefs alternent dans un équilibre naturel. La lumière souligne les volumes et les facettes, créant des reflets en perpétuelle évolution qui donnent profondeur et rythme à la surface.

La collection se décline en sept teintes brillantes — silk, oyster, blue hour, midnight, cherry smoke, green velvet et lilac plume —, une palette sophistiquée qui évoque l'élégance intemporelle de l'Art déco à travers des couleurs intenses et profondes. Le relief ne décore pas. Il dessine la lumière.

Ogni confezione di Gatsby Blend contiene un mix predefinito di due elementi tridimensionali e un elemento liscio (40% liscio, 60% 3D circa). Per ottenere il miglior risultato estetico, si consiglia di distribuire i diversi elementi in modo equilibrato durante la posa, evitando schemi ripetitivi.

Each box of Gatsby Blend contains a predefined mix of two three-dimensional elements and one plain element (approximately 40% plain and 60% 3D). To achieve the best aesthetic result, it is recommended to distribute the different elements evenly during installation, avoiding repetitive patterns.

Chaque boîte de Gatsby Blend contient un mélange prédéfini de deux éléments tridimensionnels et d'un élément lisse (environ 40 % lisse et 60 % 3D). Pour obtenir le meilleur résultat esthétique, il est recommandé de répartir les différents éléments de manière équilibrée lors de la pose, en évitant les schémas répétitifs.
