Marble Velvet is a ceramic project that includes six among the most elegant sources of inspiration in nature: marbles, whose beauty is effortless and sophisticated. These marbles were chosen to bring to life a discreet kind of luxury that finds its perfect balance between a contemporary style and a more classical one. The matt surface has a smooth and slightly glazed appearance, enriched by realistic marbling and precious crystallizations. These effects are the result of the new 3D Reactive® technology which confers our products the authentic elegance of marble.

Marble Velvet est un grand projet céramique qui comprend six des inspirations naturelles les plus raffinées : des marbres ayant une beauté claire et séduisante, sélectionnés pour donner vie à un luxe discret, en équilibre entre classique et moderne. Veloutée et délicatement lumineuse, la surface mate se caractérise par des veines et des cristallisations précieuses et suggestives, obtenues grâce à 3D Reactive et capables de nous rendre l'élégance authentique du marbre.

**3D Reactive® è una nuovissima tecnologia produttiva frutto del solido know-how ceramico de La Fenice Ceramiche e di tecniche decorative tra le più evolute nel settore. Progettata per creare superfici tridimensionali di grande naturalità, impiega smalti riservanti a base d'acqua per arricchire la superficie della piastrella con rilievi e raffinati effetti tattili perfettamente coerenti col pattern grafico. 3D Reactive® non impiega solventi tradizionali ma solo materie totalmente eco-compatibili che agiscono per idrorepellenza, senza generare alcuna reazione chimica. Questa tecnologia aggiunge alla straordinaria risoluzione grafica della decorazione digitale convenzionale infiniti effetti materici, portando l'estetica ceramica a inediti livelli di fascinazione.**

3D Reactive® is a brand-new production technology born from La Fenice Ceramiche's deep know-how of ceramic industry and the most advanced decoration technologies. 3D Reactive® was conceived to create realistic three-dimensional surfaces by making use of water-based enamels which recreate precious reliefs and tactile effects on the tile surface, in accordance with the graphic pattern. 3D Reactive® does not use traditional solvents but only totally eco-friendly materials that work by water repellence, which prevent any chemical reaction. This technology enriches the extraordinary graphic resolution of conventional digital decoration with infinite material effects, which elevates the aesthetics of ceramics to unprecedented levels of fascination.

3D Reactive est une toute nouvelle technologie de production issue du savoir-faire céramique de La Fenice Ceramiche et des techniques décoratives les plus avancées du secteur. Conçue pour créer des surfaces tridimensionnelles très naturelles, cette technologie utilise des émaux de réserve à base d'eau qui enrichissent la surface du carreau avec des reliefs et des effets tactiles raffinés et parfaitement conformes au motif graphique. 3D Reactive n'utilise pas de solvants traditionnels mais uniquement des matériaux totalement éco-compatibles qui agissent par déperlance, sans générer aucune réaction chimique. Cette technologie enrichit l'extraordinaire résolution graphique de la décoration numérique conventionnelle avec des effets de matière infinis, ce qui rehausse l'esthétique de la céramique à des niveaux de fascination sans précédent.
