COLLECTION	NAMUR
LOOK	STONE & CLASSIC
KIND OF MATERIAL	Full-body coloured porcelain stoneware
COLLECTION'S PRESENTATION	NAMUR is inspired by Pierre Bleue or Blue Stone, the Belgian sedimentary rock with characteristic grey-blue hues. In Tagina's interpretation, the stone takes on multiple shades of colour ranging from black to beige, up to grey, in full chromatic and size continuity with both internal and external environments thanks to the exceptional characteristics of frost resistance and durability typical of porcelain stoneware.
