# TILE COLLECTION

Design by **CHRISTIAN HAAS**

For **CHRISTIAN HAAS** and his team, tiles are more than just a surface. They define the identity of a building and endure through time.

His collection is a tribute to craftsmanship, where material integrity and thoughtful design come together to create something lasting and distinctive.

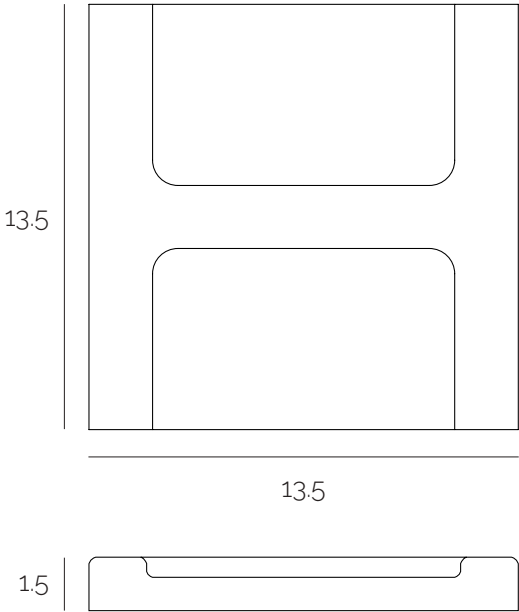

At the heart of the collection is **BARRO's** expertise in ceramics. Each tile reflects the precision of handmade processes, with subtle variations in texture and tone that lend depth and character.

The carefully curated palette of ten natural tones draws inspiration from organic landscapes and the colors of nature.

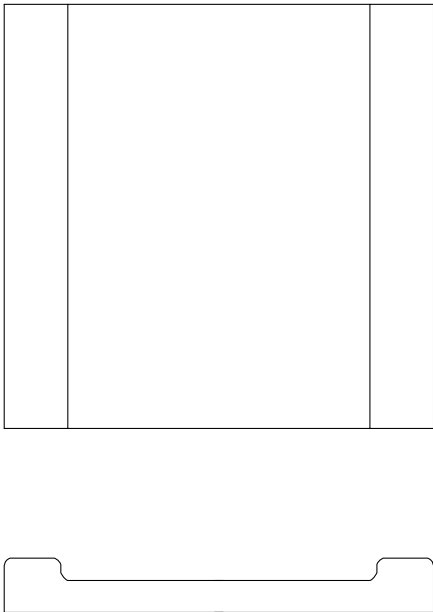

With seven distinct tile series, Christian's collection explores the relationship between volume, light, and shadow. The result is a surface that evolves with its surroundings.

Designed for architects and interior designers, this collection strikes a balance between tradition and modernity, craftsmanship and durability. It invites the creation of spaces with depth, warmth, and a lasting sense of harmony.

LAYING SCHEMES

PULCO is defined by its playful, optimistic spirit, offering three distinct designs that encourage experimentation.

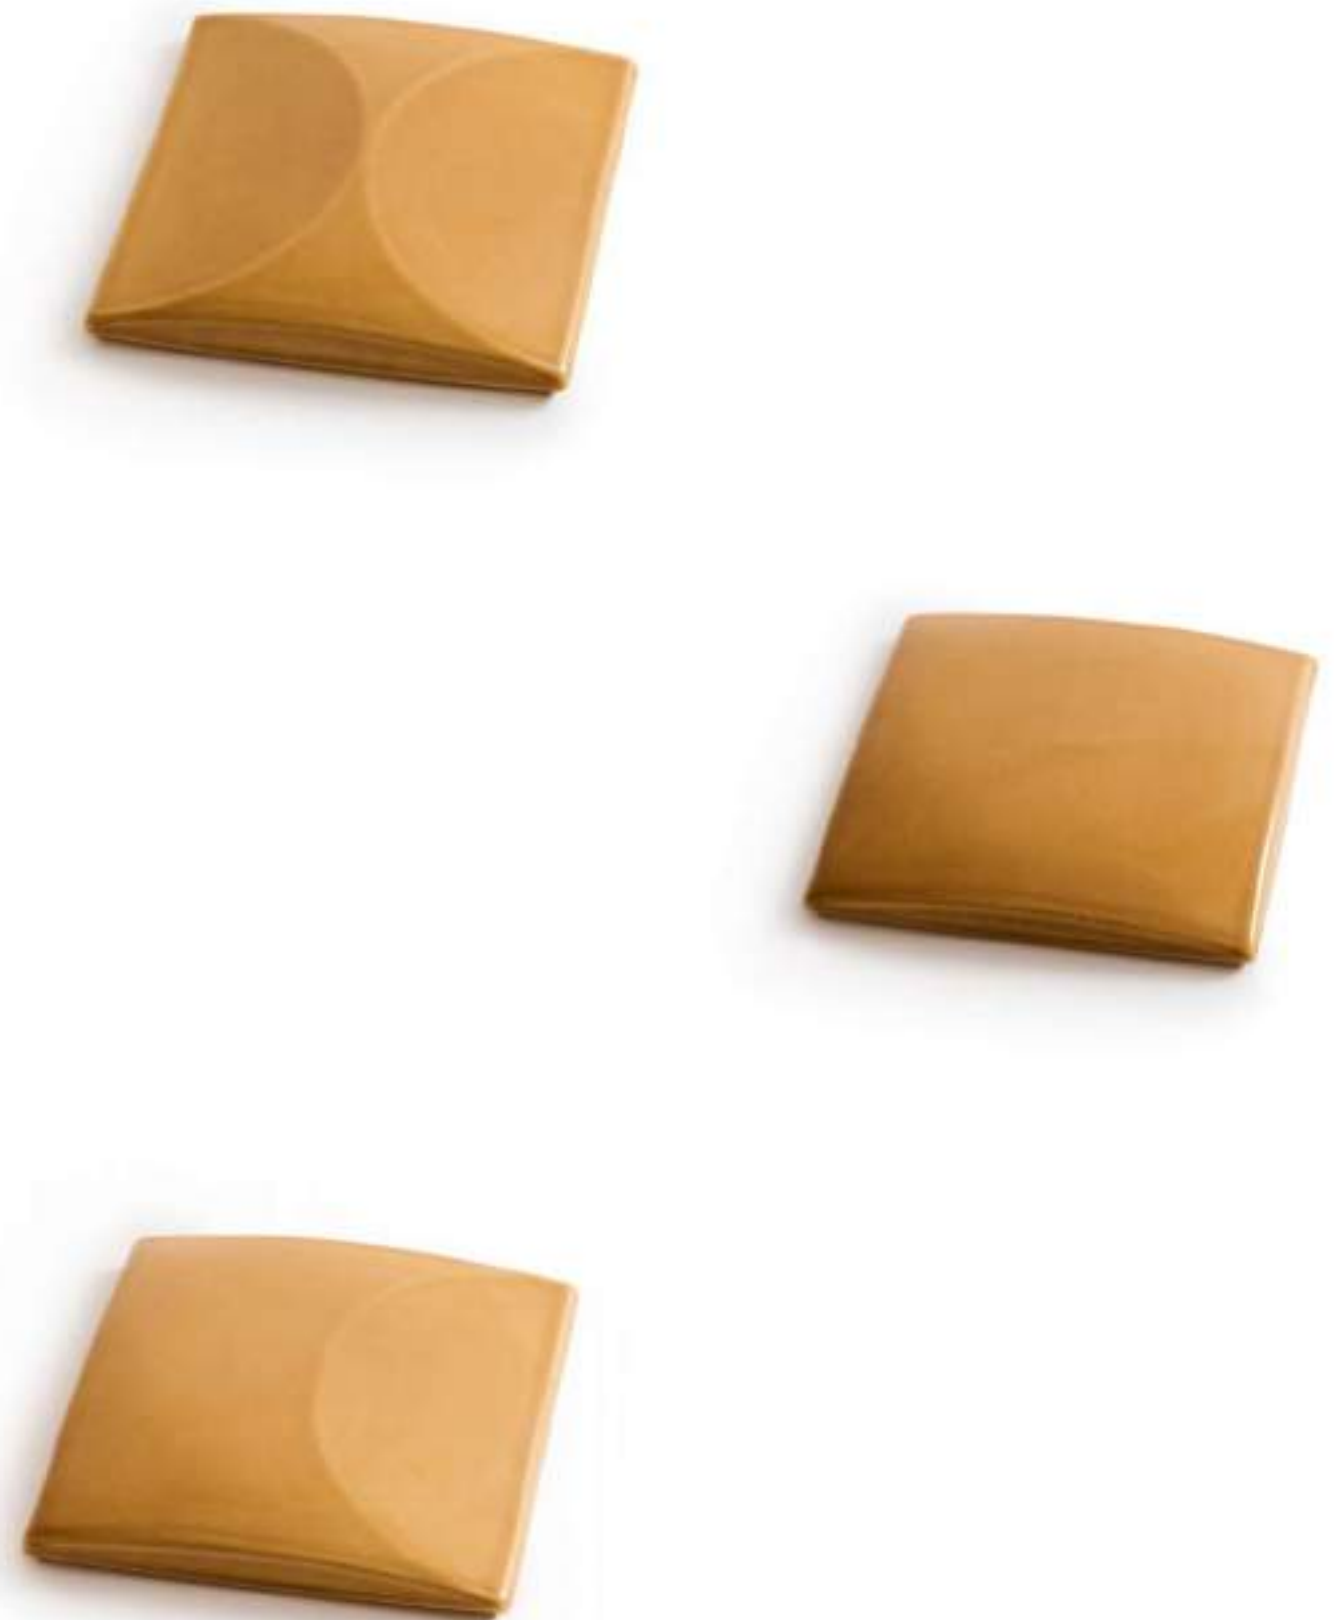

Each variation features a subtly sculpted surface: one with a single convex bump, another with a bump intersected by a single cut, and a third where two cuts create a circular interplay of form and shadow.

The tiles interact dynamically with light, casting shifting shadows throughout the day and bringing liveliness and energy to any space.

## INFORMATION

### BUDGET

We send your personalized quote with shipping costs.

### SAMPLES

You can request a free sample of the model and color of your choice.

### FORMING THE ORDER

Formalization of the order and payment as agreed.

### PROJECT CUSTOMIZATION

Our team will be responsible for designing and producing your order.

### HANDMADE

It's handled, cared for and finished by real people.

### PRODUCTION TIME

Approximately 40-60 days from order confirmation.

### PACKING AND DELIVERY

Our tiles are packed one by one with eco-friendly packaging.

We create  
PERFECTLY  
IMPERFECT  
tiles
