MILANO SUBLIME

From the stone of the Cathedral to contemporary Milan

MILANO SUBLIME CONTINUES ITS JOURNEY THROUGH THE HEART OF THE CITY

Born from the collaboration with the *Veneranda Fabbrica del Duomo di Milano*, MILANO SUBLIME interprets **Candoglia marble** in porcelain stoneware, the stone used for centuries in the construction and restoration of the Cathedral.

A material deeply connected to Milan, its architecture and its history, which COEM reinterprets through contemporary surfaces capable of preserving its chromatic richness, depth and expressive strength.

Previewed at **Cersaie 2025** and winner of the **ADI Ceramics & Bathroom Design Award 2025 – Best Ceramic Product**, the collection now continues its journey with a new expansion.

NEW COLOURS, SIZES AND DECORS

At **Cersaie 2026**, MILANO SUBLIME evolves with new compositional and design possibilities.

The colour range is enriched by **Lieve and Vivo**, two new interpretations that broaden the collection's nuances and join the original **Puro and Lume** colours.

The range of sizes also expands with the introduction of **Palladiana** and the new **22,6x45,3 cm** size, two solutions that allow the surface to be interpreted through different scales, proportions and compositions.

Two new decors in the 60,4x120,8 cm size, developed in the **Puro and Lume** colours, complete the new additions and introduce further possibilities for wall coverings and the definition of spaces.

FROM THE STONE OF THE CATHEDRAL TO CONTEMPORARY MILAN

MILANO SUBLIME thus continues its journey: from the symbolic stone of the Cathedral to the contemporary city, from places of memory to the new spaces of architecture and interior design.

Candoglia marble remains the starting point of the project, while Milan becomes the context in which the collection is renewed through new colours, sizes and decorative elements.

An evolution that broadens the project's possibilities without losing the connection with the material and the identity from which MILANO SUBLIME was born.

Technical Details

Product type: gres++

Colours: Lieve, Vivo, Puro, Lume

Finishes: Unpolished Rectified, Outdoor Rectified

Sizes: 120,8x120,8, 75x149,7, 60,4x120,8, 60,4x90,6, 60,4x60,4, 30,2x60,4, 22,6x45,3, Palladiana

Mosaic: Ritmo Mosaic, Trama Mosaic

Application: Soft&Safe R11
