Cleaning and maintenance

Iron and steel table structures are designed to ensure durability and strength over time. To keep them in excellent condition and prevent premature wear, it is essential to follow a few simple maintenance and cleaning guidelines

ROUTINE CLEANING

For daily cleaning, simply:

Use a soft microfiber cloth or a damp sponge with lukewarm water and a neutral detergent. Always dry with a soft, dry cloth to prevent streaks or limescale buildup.

Avoid using:

Abrasive sponges or metal scouring pads, as they can scratch the surface. Products containing ammonia, bleach, chlorine, or aggressive solvents, which may damage the finish. Oily or wax-based cleaners that leave residues and alter the metal's appearance.

DEEP CLEANING

For stubborn dirt, grease stains, or difficult marks:

Grease or oil residues: Use a neutral degreasing cleaner, apply with a soft cloth, and rinse with clean water.

Limescale stains: For limescale deposits, a mild solution of water and white vinegar can be applied with a cloth and rinsed off immediately.

Rust spots on painted iron: If small rust spots appear, gently treat them with a non-abrasive sponge and a specific anti-rust product, being careful not to damage the protective paint.

PREVENTION AND MAINTENANCE

Avoid prolonged exposure to moisture: In outdoor environments, always dry the surfaces after rain and ensure the support area does not retain water.

For painted iron structures: Regularly check the surface for any scratches and restore the protective paint if needed.

For stainless steel structures: Avoid prolonged contact with non-stainless steel objects to prevent galvanic corrosion.

For items with wooden parts, do not store in damp or poorly ventilated spaces.

Le strutture dei tavoli in ferro e acciaio sono progettate per garantire durata e resistenza nel tempo. Per mantenerle in condizioni eccellenti e prevenire un'usura prematura, è essenziale seguire alcune semplici linee guida per la manutenzione e la pulizia.

PULIZIA DI ROUTINE

Per la pulizia quotidiana, è sufficiente:

Utilizzare un panno morbido in microfibra o una spugna umida con acqua tiepida e un detergente neutro. Asciugare sempre con un panno morbido e asciutto per evitare aloni o accumuli di calcare.

Evitare l'uso di:

Spugne abrasive o pagliette metalliche, che possono graffiare la superficie. Prodotti contenenti ammoniaca, candeggina, cloro o solventi aggressivi, che possono danneggiare la finitura. Detergenti oleosi o a base di cera, che lasciano residui e alterano l'aspetto del metallo.

PULIZIA PROFONDA

Per sporco ostinato, macchie di grasso o segni difficili:

Residui di grasso o olio: Usare un detergente sgrassante neutro, applicare con un panno morbido e risciacquare con acqua pulita.

Macchie di calcare: Per depositi di calcare, si può applicare una soluzione delicata di acqua e aceto bianco con un panno e risciacquare immediatamente.

Macchie di ruggine su ferro verniciato: Se compaiono piccole macchie di ruggine, trattarle delicatamente con una spugna non abrasiva e un prodotto specifico antiruggine, facendo attenzione a non danneggiare la vernice protettiva.

PREVENZIONE E MANUTENZIONE

Evitare l'esposizione prolungata all'umidità: In ambienti esterni, asciugare sempre le superfici dopo la pioggia e assicurarsi che l'area di appoggio non trattenga acqua.

Per strutture in ferro verniciato: Controllare periodicamente la superficie per eventuali graffi e ripristinare la vernice protettiva se necessario.

Per gli oggetti con parti in legno, non lasciare in ambienti umidi o poco areati.

Ethical identity

For Atlas Concorde, being Made in Italy is not just a prestigious certification of style, design, and production excellence, but an identity that involves all aspects of its business. For this reason, we identify with the values expressed by Confindustria Ceramica's ethical code, which guarantee absolute compliance with labor regulations, and with the marks Made in Italy and Ceramics of Italy, which certify the quality of authentic Italian style.

Per Atlas Concorde, Made in Italy non è solo un prestigioso attestato di stile, design ed eccellenza produttiva, ma un modo di essere che coinvolge tutti gli aspetti della propria attività. Per questo ci riconosciamo nei valori espressi dal codice etico di Confindustria Ceramica, che garantiscono il rispetto assoluto delle normative sul lavoro, e nei marchi Made in Italy e Ceramics of Italy, che certificano la qualità dell'autentico stile italiano.

Notes

CAUTION

Avoid accidental shocks that could result in chipping or irreversible damage. In the event of breakage, check that the structural parts are not damaged and, if necessary, discard the item. Avoid any improper use of the items and their components. Some removable parts could be used as blunt objects. Be careful: sharp edges and possible razor-sharp surfaces.

ATTENZIONE

Evitare urti accidentali che potrebbero provocare sbecchature o lesioni non ripristinabili. In presenza di rotture verificare che le parti strutturali non siano compromesse e nel caso mettere fuori utilizzo l'oggetto. Evitare qualsiasi uso improprio degli articoli e dei loro componenti. Alcune parti removibili potrebbero essere utilizzate come oggetti contundenti. Prestare attenzione: spigoli acuminati e possibile presenza di superfici taglienti.
